12.13.2018

Brian Fleming commented on the case against Huawei's chief financial officer regarding potential violations of U.S. sanctions and explained the impact that could have on the Committee on Foreign Investment in the U.S. (CFIUS). "If [transaction parties] have any connection or any sort of exposure to Huawei, at this stage in the game I would imagine that that is a conversation point that would be happening within the committee," Fleming said.
