

Coronavirus Task Force

The COVID-19 pandemic is creating significant business and legal challenges for companies throughout the world. In response to client demand, Miller & Chevalier Chartered has formed an interdisciplinary task force, comprised of attorneys in seven main practice areas, to help businesses navigate the complex legal issues created by this global event. The Miller & Chevalier Coronavirus Task Force advises clients in a wide range of industries regarding legislative, regulatory, and strategic implications of the COVID-19 outbreak, including:

- **Employee Benefits & Employment:** Implementation of Coronavirus Aid, Relief, and Economic Security (CARES) Act provisions in tax-qualified retirement and health plans; application of Employee Benefits Security Administration (EBSA) Notice 2020-01 and the Internal Revenue Service (IRS)/Department of Labor (DOL) Joint Notice extending Consolidated Omnibus Budget Reconciliation Act (COBRA) insurance, special enrollment, and claims deadlines; obligations under federal leave laws (FMLA) or company leave and paid time off policies; application of the Employee Retention Credit and the Paid Sick Leave/Paid Family Leave Credit; Paycheck Protection Program (PPP) procedures and the impact of PPP loans on employer credits; employer disaster relief payments to employees under Internal Revenue Code section 139; federal and state tax issues from remote work arrangements; disaster relief provisions applicable to deferred compensation arrangements; and duties owed by employers under the Occupational Safety and Health Administration (OSHA) updated coronavirus guidance, including reporting and recording standards and the General Duty Clause.
- **Domestic & International Tax:** Tax issues relating to supply chain and other business disruptions, including the treatment of losses and the permanent negative international tax consequences, which may be particularly dramatic given recent changes made by the Tax Cuts and Jobs Act; potential for legislative business tax relief (*e.g.*, enhanced net operating loss relief, enhanced charitable contribution incentives) modeled after "disaster relief" packages that are commonly enacted in response to natural disasters; tax filing and compliance issues.
- **Government Contracts:** Reimbursement under Section 3610 of the CARES Act; schedule delays, suspensions of work or stop work orders, changes, terminations for convenience, increased costs and other performance issues impacting prime contractors and subcontractors; negotiating contractual and statutory indemnity for the performance of high-risk work; use of rapid acquisition techniques for COVID-19 response supplies and services.
- **Customs & Import Trade:** Planning for supply chain disruption; evaluating alternative suppliers and logistics providers; outreach to customs administrations; application and enforceability of *force majeure* clauses in international trade contracts.
- **Economic Sanctions & Export Controls :** Humanitarian and medical assistance to sanctioned countries and parties; evaluating alternative suppliers, vendors, and partners in response to supply chain disruptions; liaising with government agencies to secure guidance, licenses, and other authorizations; impact and enforceability of trade-related contract obligations, including *force majeure* and other grounds for rescission.
- **Commercial Disputes:** Business disputes arising from supply chain disruption, event, and travel cancellations, and policy/regulatory changes; invocation of *force majeure*, reformation principles and other contractual issues stemming from the spread of COVID-19.
- **Cross-Border Investigations and Corporate Due Diligence:** Managing remote internal investigation and government-led interviews; navigating information collection, including from decentralized systems around the world; conducting due diligence, including in and due diligence required for ongoing mergers, acquisitions, joint ventures, or relationships with third parties.
- **Corporate Compliance Programs:** Enhancing and tailoring compliance programs to identify and meet the needs of a changing workplace, workforce, product, supply chain, counterparty landscape, and other pandemic-related shifts.
- **Paycheck Protection Program :** Applying for PPP loans, monitoring use of eligible expenses, applying for loan forgiveness, preparing for and responding to Small Business Administration (SBA) loan audits, and responding to government investigations

and False Claims Act suits.
