Tax Alert

03.10.2021

The House today approved the final version of virus relief reconciliation legislation (H.R. 1319), clearing the bill for the president's signature. It passed on a partisan 220-211 tally. No Republicans voted for the bill. Rep. Jared Golden (D-ME) was the only Democrat to vote against it.

The \$1.9 trillion bill, which previously cleared the Senate last weekend, will be signed into law on Friday, the White House says.

The bill includes a number of tax policy changes affecting businesses. See this [previously issued Tax Flash](#) for more on these provisions.
